

Summit HDPE Locker LEED® Certification Information

As a responsible manufacturer, Summit Lockers, Inc. has programs in place to deliver high quality, hygienic and environmentally friendly lockers. Our selection of suppliers and manufacturing techniques builds sustainability, recycled content and reuse into our products.

The LEED® certification program is a program for developing environmentally responsible, low emission sustainable buildings. Summit Plastic lockers are made from solid HDPE sheets and help contribute points to overall building certification in the following areas:

MR Credit 2.1 and 2.2

Construction Waste Management Divert 50% or 75% from disposal

1 Credit Point each or 2 Credit Points Total

Summit Plastic Lockers are made from HDPE Solid Plastic, a material which can be 100% recycled. We manufacture a product that never needs to be repainted and will never rust or delaminate.

MR Credit 4.1 and 4.2

Recycled Content

1 Credit Point each or 2 Credit Points Total

Summit Plastic Lockers are manufactured using material that contains 10%-75% Post-Consumer Recycled HDPE.

MR Credit 5.1 and 5.2

Local Regional Material

1 Credit Point each or 2 Credit Points Total

Summit Plastic lockers are manufactured in Columbia South Carolina.
